OBSERVE BEFORE ORDERING

IMPORTANT: This is a list exclusively to the trade, viz., growers and dealers. In addition, we issue a retail Catalogue, a copy of which will be cheerfully mailed on request. This includes all the nursery plants we have to offer.

PRICES: Quotations in this list are net; no discounts.

TERMS: Parties unknown to us will please furnish two or three references in the trade with whom they have been doing business, and allow sufficient time for investigation; otherwise cash must accompany the order. Orders not paid for in advance, or for which terms have not been arranged prior to time of shipment, will be sent C. O. D.

SHIPPING SEASON: Deciduous trees, November to March; evergreens, September to May; roses, November to April.

HOW SHIPPED: State whether by freight or express and by what route. If uninstructed, we will use our best judgment, but in no case do we assume any responsibility for either safe or prompt delivery, nor for any injury to plants caused by delays on the part of the transportation companies.

CAUTION: All orders are accepted with the proviso that they shall be void should any injury befall the stock or-

dered from any cause over which we have no control.

COMPLAINTS AND ERRORS: Mistakes and complaints, whenever such occur, must be reported promptly.

PACKING CHARGES: These are to cover only the actual cost of materials used.

ADDRESS: All telegrams and mail should be addressed California Nursery Company, Niles, California; when telephoning call for California Nursery Company, Niles.

NON-WARRANTY: While we exercise great care to have all nursery stock true to name, nevertheless it is understood that should any stock prove otherwise we shall not be liable for any sum greater than that paid us for only such stock as shall prove untrue.

VISITORS WELCOME: A visit to our growing grounds and an inspection of stock is invited. Offices and grounds are situated on the main highway between Oakland and San Jose, and less than a mile west of the town of Niles, on the Southern Pacific Railway. If coming by train, notify us in advance, or telephone from the railway station, and conveyance will meet you.

CHOICE SPECIMEN TREES

For Immediate Effects in Park and Home Grounds Adornment

WE SPECIALIZE IN SPECIMEN TREES ESTABLISHED IN BOXES FOR IMMEDIATE PLANTING.

In order to meet the demand for immediate effects in park and garden making we have for years grown and maintained an ample stock of specimen trees of various kinds, well established in boxes ready for immediate delivery and planting. These vary more or less in size, character of growth and in quality, some being better furnished than others. Obviously, there is more or less variation in the shape, symmetry and furnishing of specimen trees; therefore, it is impossible to make definite prices on this class of stock. Where it is possible, we invite a personal inspection before ordering. If this is not practical, we will exercise our judgment in meeting the requirements of purchasers, and make a price which will be in keeping with the character of plants furnished. Hence the following must be considered minimum and maximum prices:

SEEDLING STOCKS OF

Evergreen and Deciduous Trees, Shrubs and Climbers

The following stock is growing in our screened seed bed plant house, and will be ready for shipment from October 15 to December 1. The plants will be taken up with bare roots and packed in moss. The deciduous stock will not be ready for shipment before November 15. All of this stock is in excellent condition, and has been kept thrifty and in active growth during the entire summer by careful attention to watering.

Conifers, Broad-Leaved Evergreens, Climbers and Bedding Plants

For Lining Out and Repotting

In order to meet a constantly growing demand on the part of the trade for stock grown in small pots for lining out in nursery rows or for repotting, we are offering a choice line of plants embraced in the following list. Orders received for these are subject to delivery from January 1 to April 1. The stock offered is in the best of condition, being well established in pots without being pot-bound, all of which is ready for shifting into larger pots or lining out in rows in the open ground at the time deliveries are made, or later if so desired. Orders for this stock are accepted with the express understanding that deliveries are to be made between January 1 to April 1.

Customers will be doing us a favor by ordering not less than 20 of a variety.

CALIFORNIA FIELD-GROWN ROSES

BUDED ON MANETTI ROOT

California field-grown roses lead the world in quality and robust habit of growth and free flowering characteristics, because grown under ideal conditions of soil and climate in the open field.

Especially is this true of roses grown in the even temperate region of the San Francisco Bay territory, in

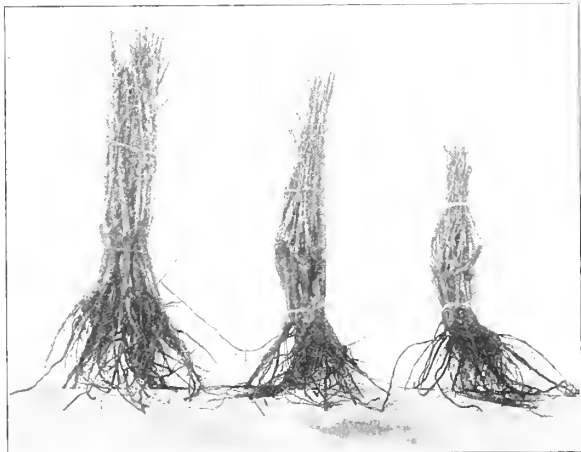

which Niles is situated. Here the growing season extends over a long period of time thereby ensuring a strong fibrous root system and a well matured top, producing plants possessed of vigorous growing qualities, which of itself is an assurance that they will prove satisfactory to the ultimate planter.

OUR THREE GRADES

- No. 1 plants run three or more branches and well rooted.
No. 1½ plants run two or more branches and are well rooted.
No. 2 plants run one or more branches and are well rooted.
